PROGRAM**

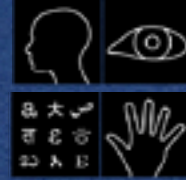

**JULY 19-22
MILAN, ITALY**

3rd Joint Meeting

**of the Society for Philosophy and Psychology &
European Society for Philosophy and Psychology**

UNIVERSITÀ
DEGLI STUDI
DI MILANO

Welcome!

Welcome to the 3rd joint meeting of the **Society for Philosophy & Psychology** (SPP) and the **European Society for Philosophy & Psychology** (ESPP)!

This conference is made possible through financial and administrative support from both societies, as well as from the **University of Milan**, our local host.

It is also made possible through the time and effort contributed by reviewers, who helped evaluate an all-time record of submissions for this special meeting.

We hope that you have a productive and stimulating conference, and we look forward to sharing this program with you.

Sincerely,

Shannon Spaulding

Registration

Registration for the conference can be completed online at <https://espp-spp-2022.com/registration/>.

Questions about this process, or other local arrangements, can be directed to ESPP.SPP.Milan.2022@gmail.com.

Location (and a guide!)

The conference will take place at the **University of Milan**, via Festa del Perdono 7, 20122, Italy.

A guide to Milan, tailored to (E)SPP attendees, is available at <https://espp-spp-2022.com/guide-to-milan/>.

Poster Information

You are permitted to install your poster as early as you'd like *on the day of your session*. We'll provide display boards, tripod easels, and double-sided tape.

Poster boards are **94.5cm wide x 119cm tall** (37 inches wide x 47 inches tall).

At least one author should always tend the poster during the session and be available to explain the work and answer questions.

Use the display with the # corresponding to your listing in the program.

Talk Information

(invited and contributed sessions)

Each contributed talk is allotted **a total of 30 minutes** for both speaking and Q&A. Speakers will be given leeway to use this time as they wish — for example, speaking for 20 minutes (leaving 10 minutes for questions), or speaking for 25 minutes (leaving 5 minutes for questions).

Invited talks are **40 minutes total**, including speaking and Q&A.

Chairs will strictly enforce the total time allotted to each speaker. Chairs will also follow the order of presentations listed in the program. Transition time between talks (e.g., setting up slides) should happen during the Q&A for the previous talk. To allow for attendees switching among parallel sessions, talks should not begin before their scheduled time, even if the previous talk ended early. No introductions are necessary beyond the speaker's name and talk title.

Get Involved!

Vote for Best Poster

Each day will have a “best poster” award. You can vote for best poster by filling out an online survey that will appear that day. To help you remember which poster you want to vote for, each poster has a number associated with it, and you can vote using the number, title, or author information.

Mentoring Lunch

Graduate students, especially underrepresented groups and women, are invited to attend the SPP Diversity Committee's Mentoring Lunch on Thursday July 21. Sign up here for more information about the event:

<https://www.signupgenius.com/go/5080f4aadam2fa6f94-sppdiversity>

Business Meeting

Open to all attendees. Friday, July 22, from Noon-1pm.

Society Listservs

Email hamlinlab@psych.ubc.ca to join SPP-ANNOUNCE (official business) and/or SPP-MISC (job postings, CFPs from other conferences, etc.)

Post your in-press papers to the monthly digest

Each month, a list of in-press papers from the SPP community is sent through the SPP-MISC listserv. To include your recent paper or book in the next month's list, email christina.starmans@utoronto.ca with title, authors, affiliations, journal, 3 keywords, corresponding author email, and link to pre-print if available.

The role of epistemic & moral qualities on children's trust of an inaccurate robot

Teresa Flanagan,
Nicholas Georgiou, Brian Scassellati & Tamar Kushnir

Conspiracy theorist as scientist

Nina Strohminger
& Jonathan Berman

Psychological Essentialism

Room 109

One recipe for two flavors of generics: How contextual restrictions and stability give rise to essentialist & structural generics

Katherine Ritchie
& Ny Vasil

Mechanism influences intuitive object complexity

Tal Boger
& Frank Keil

Are we teleological essentialists?

Sehrang Joo
& Sami Yousif

Engineering social concepts: Feasibility and causal models

Eleonore Neufeld

Mental Simulation

Room 111

Concept-driven suppositional thinking

Nicholas Shea

Eye-tracking mental simulation during retrospective causal reasoning

Kristina Krasich,
Kevin O'Neill & Felipe De Brigard

Looking into the past: Eye-tracking mental simulation in physical inference

Ari Beller, Yingchen Xu,
Scott Linderman
& Tobias Gerstenberg

Using pretense behavior to explore counterfactual self-simulation

Matan Mazor, Chaz Firestone & Ian Phillips

Moral Norms & Judgment

Room 435

Moral progress and tribalism

Jonathan Knutzen

The developmental origins of universalization

Sydney Levine, Laura Schulz, Josh Tenenbaum & Fiery Cushman

Descriptive norms and identity influence enforcement of rarely followed rules

Jordan Wylie
& Ana Gantman

Social expectations explain the polarity effect of evaluative language

Pascale Willemsen,
Lucien Georges Baumgartner, Bianca Cepollaro & Kevin Reuter

Mental Representation

Room 515

The untenable status quo: The concept of representation in the neural & psychological sciences

Luis H. Favela
& Edouard Machery

A pushmi-pullyu psychology

Alison Springle,
Nimra Asif, Seth Goldwasser, Alessandra Buccella and Tom Wysocki

Making sense of probabilistic representation

Samuel Lippl, Jessica Thompson, Raphael Gerraty & Gerardo Viera

The content indeterminacy problem of a forward-looking theory of mental content

Sameera Singh
